

alpha 900™ fog machine

IT'S POWERFUL, UL-LISTED AND COVERED BY ROSCO'S GUARANTEE

Although this is the lowest priced of all Rosco's fog machines, it carries several assurances of high quality. It's one of the very few fog machines in it's price category to be UL listed. It has the same lengthy Rosco guarantee offered on other Rosco fog machines. Like most UL-listed machines, the Alpha 900 is protected by a fuse, which is easily accessible. Perhaps most important, it is sold and serviced by Rosco and Rosco dealers, who have been in the fog and smoke business for nearly two decades!

The Alpha 900 is operated from a hand held remote control connected to the machine by a 30' (9m) power cord. The machine itself weights less than 12 pounds (5 kilos) so is easily transported from place to place. A sturdy carrying handle facilitates this and an optional carrying case is available. The Alpha 900 accepts all the Rosco Fog Fluids, including the scented fluids. A liter container sits securely in a well on the machine.

The fog volume of the Alpha 900 is quite powerful, with throughput (the flow of fluid through the machine) measuring more than a liter per hour or 16 milliliters per minute. Since it uses the Academy Award winning Rosco fog fluid, you can be assured of the kind of dense, white smoke produced by other Rosco machines.

For applications where the smoke needs to appear in a location other than where the machine is situated, Rosco offers a ducting hose and a hose adapter as optional accessories.

Technical Specifications

Power Requirements 120 volts, 50/60 Hz, 10 amps 220/240 volts, 50/60 Hz, 5 amps	Dimensions 14.4" x 6" x 8" 36.6 cm x 15.25 cm x 20.3 cm	Max. Consumption 1 liter per hour 16 ml per minute
Particle Size 0.25 - 60 microns	Weight 11.4 lbs., 5.2 kg.	Fuse Type 120 250/10A 240 volt-5A
Warm-Up Time 5 minutes (approx.)		

Optional Accessories

Hose Adapter Connects ducting hose to machine. Dimensions: 4" x 6.75" (10.2 cm x 17.14 cm)	Ducting Hose Flexible, plastic hose, connects to adapter for ducting of fog. Dimensions: 4" x 25' (10.2 cm x 7.62 m)
---	---

HEALTH WARNING: Vapor from Rosco fog fluids, like any other common material in an aerosolized state, may be irritating to or cause allergic symptoms in some persons with allergenic sensitivity. Do not fog in the presence of known asthmatics.
